MORRIS COUNTY MUNICIPAL UTILITIES AUTHORITY

SINGLE-STREAM

all-in-one

RECYCLING

Shredded Paper Preparation

DO shred as little paper as possible.

DO put all shredded paper into clear or see-through plastic bags, such as grocery bags (no dark-colored bags).

DO tie knots to close the bags securely.

DO put bags of shredded paper into the single-stream containers.

DO NOT put loose shredded paper into the single-stream containers.

DO NOT put any other items into the bags of shredded paper.

DO NOT put any other plastic bags whatsoever into the single-stream containers.

Thank you for cooperating.

Note: Loose shredded paper often falls out of recycling bins while they are being emptied at curbside, and it then becomes litter.

Loose shredded paper ends up in the trash at the single-stream recycling facility because it slips through the cracks during the sorting process.
